Dear Mr. Huggins:

This letter serves as follow-up to my February 12th correspondence regarding your request for all “records and communications identifying, reflecting, or documenting the Consumer Financial Protection Bureau (‘CFPB’) refusing requests for operating funds from the Federal Reserve, causing the shutdown of the CFPB’s Consumer Response System” and more.

After careful review, the Department has identified no records responsive to this inquiry. This concludes the response to your public records request.

Pursuant to 1 V.S.A. § 318(c), you have the right to appeal this public records determination to Commissioner Kaj Samsom.

Sincerely,

Victoria Hudson
Information Management Officer and Records Custodian
